

Sixth grade primary - Weekly assessment and homework - First week (1)

Weekly Assessment: (اختار اختبار واحد فقط مع الواجب المنزلي)

Test 1

1- performs complex tasks that simulate the human element in thinking and performance

A- Artificial intelligence

B- Switches

C- Digital fingerprint

D- Wired networks

2- Types of wireless networks are connected by

A- Ports

B- Wi-Fi

C- Modem

D- Switches-

Test 2

1- is used to convert the signal received from the ISP into a digital signal.

A- Modem

B- Ports

C- Wi-Fi

D- Switches

2- The Internet Service Provider is known by the abbreviation

A- ISP-A

B- USB

C- GPR

D- GPS

Test 3

1- The technology of helps to imitate sounds by providing them with the tone of a natural human voice

A-Artificial Intelligence

B-hearing aids

C-Bluetooth

D-Assistive Technology

2- The local area network (LAN) connected by a connecting cable between computers is considered one of the types of networks

A-Wired

B-Wireless

C-Wide-range

D-Wi-fi

Class Assessment

Through the Internet, I search for the importance of computer networks. Write one sentence from the search results

Homework:

1- The cables and wires in wired networks are connected to places called

A- Ports

B- Wi-Fi

C- Modem -

D- Switches

2- The helps to send data to a specific device over the network easily and smoothly.

A- Switches

B- Ports

C- Wi-Fi

D- Mouse

Sixth grade primary – Weekly assessment and homework – Second week 2

Weekly Assessment: (اختار اختبار واحد فقط مع الواجب المنزلي)

Test1

1- is used as a three-dimensional environment that allows you to deal with what you see and hear as if it were real

A-Virtual reality

B-Converters

C-Digital footprint

D-Assistive technology

2- technology is used to open the phone using the facial recognition system.

A-Assistive technology

B-Artificial intelligence

C-Virtual reality

D-Converters

Test 2

1- You can go to an ancient archaeological site and go back thousands of years, using technology

A-Virtual reality

B-Modem

C-Bluetooth

D-Router

2- technology combines the real world and virtual reality

A-Router

B-Augmented reality

C-Bluetooth

D-Digital footprint

Test 3

1- technology helps in teaching in an interactive way and consolidating information.

A- Digital footprint

B- Transformers

C- Modem

D- Augmented reality

2- Headset are worn to deal with technology

A- Virtual reality

B- Digital footprint

C- Hacking

D- Scanner

Class assessment

Using the Internet, search for assistive technology, write one sentence or phrase about it.

Homework:

1- You can see atoms and insects larger than you using technology

A- Virtual reality

B- Transformers

C- Modem

D- Router

2- technology improves the lives of people with disabilities.

A- Assistive

B- Old

C- Traditional

D- Complex

Sixth grade primary – Weekly assessment and homework – Third week 3

Weekly Assessment: (اختار اختبار واحد فقط مع الواجب المنزلي)

Test 1

1- Technology is the latest and most advanced version of services and products.

A- Cutting edge

B- Old

C- Past

C- Traditional

2- The machine helps the visually impaired to read.

A- Scanning and reading

B- Prosthetic leg

C- Printing

D- Photography

Test 2

1- Technology has helped people with disabilities to enlarge the screen and audio and convert speech to text and vice versa

A- Traditional

B- Assistance

C- Past

D- Hacking

2- Helped in the instant translation of the sign of deaf people.

A- Screen enlargement programs

B- Bell ball

C- Prosthetic leg

D- Smart gloves

Test 3

1- Elements of evaluating good products

A- High cost

B- Poor manufacturing

C- Ability to find a solution

D- Manufacturing country

2- Most important goals of assistive technology

A- Difficulty of use

B- Improving someone's independence

C- Not useful for others

D- Difficulty of access

Class evaluation

In the text formatter program, write a sentence about advanced technology and how it meets the needs of people with disabilities

Homework:

1- Points to consider when buying a good product

A- Usability

B- Difficulty of use

C- Manufacturing country

D- No need for it

2- Goals of technology Meeting the needs of people with disabilities

A- Help

B- Traditional

C- Digital footprint

D- Piracy

Sixth grade primary – Weekly assessment and homework – Third week 4

Weekly Assessment: (اختار اختبار واحد فقط مع الواجب المنزلي)

Test 1

- 1- Cut, copy and paste commands are among the most used commands in word processing programs. ()
- 2- You can use keywords to search within the database. ()
-

Test 2

- 1- Through the font formatting commands, you can choose to copy or cut text in a word processing file. ()
- 2- The Egyptian Knowledge Bank EKB is an example of a "public database". ()
-

Test 3

- 1- Specialized search engines help in searching for the required information. ()
- 2- You can use the Alexandria Library catalog through the library's website. ()
-

Class Evaluation

Through the Alexandria Library website, search for one of the stories you want to read.

Homework:

- 1- It is a collection of information, usually stored in a computer system.
- A- Paper books. B- Databases.
- C- Search engines. D- Digital search tools.
- 2- It is a database, which includes all the sources and items contained in the library.
- A- Library catalog. B- Internet.
- C- Paint program. D- Search engine.

D- Apple iOS.

Sixth grade - Weekly assessment and homework - Week 6

Lesson 8 (Website Design)

Weekly assessment:

First test

Put a mark (✓) or (x):

- 1- HTML is the standard programming language used to create web pages. ()
- 2- To write the largest heading on a web page, we use the tag <h6></h6>.. ()

Second test

- 1- Microsoft Windows is the standard programming language used to create web pages. ()
- 2- To make the font bold on a web page, the tag . . ()

Third test

- 1- Hypertext Markup Language tags consist of three parts.. ()
- 2- In a web page, to create a paragraph, we use the tag < font size ="1">. ()

Class Assessment

Design a simple web page that includes a main heading and a subheading.

Homework:

1- is the standard programming language used to create web pages.

- A- Microsoft Windows. B- Word.
- C- Android. D- HTML.

2- The tag is used to create a paragraph.

- A- <p>
- B- <h1>
- C- <i>
- D-

Sixth grade - Weekly assessment and homework - Week 7 (7)

(First Theme1 review) Weekly assessment:

Test 1

Put a check mark (True) or (False):-

- 1- Artificial intelligence performs complex tasks that simulate the human element in thinking and performance. ()
- 2- To write the largest heading on a web page, we use the tag <h6></h6>. ()

Test 2

1. You can go to an ancient archaeological site and go back thousands of years, using Bluetooth technology. ()
2. The operating system is a program that controls the functions of the computer. ()

Test 3

- 1- One of the most important goals of assistive technology is to improve a person's independence. ()
2. To repeat a phrase or sentence in a word processing, choose Copy and Paste Text. ()

Class assessment

Using a text formatter program, write a sentence about one of the stories you read in the school library.

Homework

- 1- One of the goals of technology is to meet the needs of people with disabilities.
A- Assistance
B- Traditional
C- Digital footprint
D- Hacking
- 2- is the standard programming language used to create web pages.
A- Microsoft Windows.
B- Word.
C- Android.
D- HTML.

Sixth grade - Weekly assessment and homework - Week 8

Theme2 : Digital security and safety precautions Lesson 2 (How to deal with electronic games)

Weekly assessment:

Test 1

1. Anxiety and depression are considered physical dangers of excessive electronic game play. ()
- 2 To limit the dangers of electronic games, use personal information in the username. ()

Test 2

1. Anxiety and depression are considered psychological dangers of excessive electronic game play. ()
2. If you encounter risks in electronic games, you should resort to your parents. ()

Test 3

1. Eye strain and back problems are considered security dangers of excessive electronic game play. ()
2. Large electronic game communities are overflowing with cyber bullies. ()

Class assessment

Write a physical, psychological, and security dangers from the risks of electronic games.

Homework

- 1- Some electronic games generate feelings of aggression in some people and this is one of the dangers.
 - A- Physical.
 - B- Security.
 - C- Psychological.
 - D- Environmental.
- 2- Security dangers of electronic games
 - A- Eye strain.
 - C- Weight gain.
 - B- Feelings of anxiety and depression.
 - D- Allowing strangers to access your name and email.

Sixth Grade - Weekly Assessment and Homework - Week Nine (9)

Second Axis: Digital Security and Safety Precautions

Lesson Three (Protecting Yourself from Digital Theft)

Weekly Assessment:

Test 1

1. Passwords that consist of at least eight letters, numbers, and random symbols or more are the most secure. ()
2. The Personal Data Protection Act requires companies to use strict security principles and standards. ()

Test 2

1. Multi-factor authentication requires only one way to identify you. ()
2. Full encryption protects your information so that only you can access it. ()

Test 3

1. Fingerprint authentication involves scanning your face using your camera. ()
2. If your data is compromised, you should notify a parent or adult. ()

Class Assessment

Mention two steps you can follow to activate and update data security on your devices.

Homework:

1 - requires at least two ways to identify yourself.

A- Passwords.

B- Full encryption.

C- Fingerprint.

D- Multi-factor authentication.

2- In facial recognition, the user must use only to unlock his device or the applications in it.

A- Face.

B- Finger.

C- Password.

D- Voice.
